

# PIRANHA

**ORGANIC SEWER & WASTE  
DIGESTER  
LIQUIFIES - DIGESTS -  
DEODORIZES**

Piranha contains a synergistic blend of new bacterial strains that were scientifically developed (selectively adapted) to degrade grease and fats at accelerated rates.

Piranha is excellent for maintenance of traps and drains where grease, oil, protein or starch build-up cause clogging problems. It assures good long term operation when used on a regular basis.

## BENEFITS

- Cultures grow in either the presence or absence of oxygen.
- Non-corrosive liquid; safe to handle and store.
- Low cost.

Each batch is tested and standardized for a high level of quality.

## TYPICAL CHARACTERISTICS

**Biological: Bacteria Strains\*\*\***

**Protein digesting bacteria \*\*\***

**Cellulose digesting bacteria\*\*\***

**Starch digesting bacteria \*\*\***

**Fat, grease, and oil digesting  
bacteria\*\*\***

**Bacterial count: 200 BillionPer  
gallon\*\*\***

**Physical Appearance: Milky  
white liquid - slightly turbid.**

**Odor: Woodsy Mint**

**PH: Neutral**

**Effective PH Range: 6 to 8.5**

**Effective Temp. Range: 55°  
to 100°F**

**SHELF LIFE: 1 year**

# ***PIRANHA***

## Areas of Application

- Grease Traps
- Holding Tanks
- Industrial Septics
- Drain Fields
- Cess Pools
- Food Plants
- Packing Plants
- Public Restrooms
- Drains
- Sewage
- Port-a-Toilets
- Sump Pumps
- Dry Wells
- Meat Plants
- Resident Plumbing
- RV's and Boats

## Use On

- Grease
- Oils
- Fats
- Starches
- All Food Waste
- Paper Tissue
