

Safety Data Sheet

Revision Date: 6/10/2019

Emergency Phone: Chem-Tel (800) 255-3924

Section 1: Identification

Product Name: Water Wetter

Chemical Type: Liquid

Code:

Manufacturer/Supplier:

Gold Coast Chemicals
7575 NW 74th Ave
Medley, Florida 33166
Phone: (954) 893-0044

Section 2: Hazard(s) Identification

GHS-US classification

Skin Irrit. 2 H315

Eye Irrit. 2A

Classification of the substance or mixture: Not classified.

Label elements

Signal word: Warning

Hazard statements: Causes skin irritation. Causes serious eye irritation.

Precautionary Statements

Wash thoroughly after handling

Wear eye protection, protective clothing, protective gloves

If on skin: Wash with plenty of water

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

If skin irritation occurs: Get medical advice/attention

If eye irritation persists: Get medical advice/attention

Take off contaminated clothing and wash it before reuse

Other Hazards

No additional information available

Unknown acute toxicity (GHS US)

Not applicable

Section 3: Composition/Information on Ingredients**Substance or mixture:** Mixture**Other means of identification:** Not available.**CAS number/other identifiers**

Hazardous Components		
Chemical Name	%weight	CAS
Alcohol Ethoxylate	10.0-30.0	68439-46-3

Any concentration shown as a range is to protect confidentiality or is due to batch variation. There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section. Occupational limits, if available are listed in Section 8.

Section 4: First-Aid Measures**Description of first aid measures**

Eyes	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.
Inhalation	Remove victim to fresh air
Skin	Wash contaminated skin with plenty of water. Seek medical attention if skin irritation occurs.
Ingestion	Rinse mouth with water. DO NOT induce vomiting.

Most important symptoms/effects, acute and delayed

Eye contact	Causes serious eye irritation.
Inhalation	None under normal use.
Skin contact	Causes skin irritation.
Ingestion	Gastrointestinal complaints.

See toxicological information (Section 11)

Section 5: Fire-Fighting Measures**Extinguishing media**

Suitable extinguishing media	Carbon dioxide. Water. Foam. ABC powder.
Specific hazards arising from the chemical	Reacts with some acids.
Firefighting Instructions	Exercise caution when fighting any chemical fire. Use water spray or fog for cooling exposed containers. Take account of environmentally hazardous firefighting water.
Protection for fire-fighters	Do not enter fire area without proper protective equipment, including respiratory protection.

Section 6: Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	No action shall be taken involving any personal risk or without suitable training. Isolate from fire, if possible, without unnecessary risk. Protective equipment includes protective goggles, gloves, and protective clothing. Evacuate unnecessary personnel. Avoid contact with skin, eyes and clothing. Ventilate spillage area.
For emergency responders	Use personal protective equipment as required. Stop leak if safe to do so. Stop release. Ventilate area.
Environmental precautions	Avoid release to the environment. Prevent entry to sewers and public waters.

Methods and material for containment and cleaning up

For containment	Contain released substance, pump into suitable containers.
Methods for cleaning up	This material and it's container must be disposed of in a safe way, and as per local legislation.

Section 7: Handling and Storage

Precautions for safe handling

Precautions for safe handling	Comply with the legal requirements. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. Do not eat, drink or smoke when using this product. Do not get in eyes, on skin, or on clothing. Handle and open the container with care.
Hygiene measures	Wash thoroughly after handling. Wash contaminated clothing before reuse.

Section 8: Exposure Controls/Personal Protection

Control parameters

No additional information available

Exposure guidelines

Personal protective equipment	Use appropriate personal protective equipment when risk assessment indicates this is necessary. Safety glasses. Protective clothing. Gloves.
--------------------------------------	--

Section 9: Physical and Chemical Properties

Physical state	Liquid
Appearance	Slightly yellow to green. Clear.
Odor	Mild odor
Odor threshold	Not available
pH	6.5-8.5
Melting Point	Not available
Freezing Point	Not available
Boiling Point	Not available
Flash Point	> 200.0°F (< 93.3 °C)
Relative Evaporation Rate	Not available

Flammability (solid, gas)	Not available
Explosion Limits	Not available
Explosive Properties	Not available
Oxidizing Properties	Not available
Vapor Pressure	Not available
Relative Density	Not available
Relative Vapor Density at 20 °C	Not available
Specific Gravity / Density	1 g/ml
Solubility	Soluble in water.
Log Pow	Not available
Log Kow	Not available
Auto-ignition Temperature	Not available
Decomposition Temperature	Not available
Viscosity	Not available
Viscosity, kinematic	Not available
Viscosity, dynamic	Not available
VOC Content	0%

Section 10: Stability and Reactivity

Reactivity: Reacts with some acids.

Chemical stability: Stable under normal conditions.

Possibility of hazardous reactions: No dangerous reaction known under conditions of normal use.

Conditions to avoid: No additional information available

Incompatible materials: No additional information available.

Hazardous decomposition products: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11: Toxicological Information

Acute toxicity

Ingredient name	Result	Species	Dose
Alcohol Ethoxylate (68439-46-3)	LD50 Oral	Rat	1400 mg/kg estimated
	LD50 Dermal	Rabbit	> 5000 mg/kg -
	ATE CLP (oral)		1400.000 mg/kg body weight

Skin corrosion/irritation

Causes skin irritation. pH 6.5-8.5

Serious eye damage/eye irritation

Causes serious eye irritation. pH 6.5-8.5

Respiratory or skin sensitization

Not classified

Germ cell mutagenicity

Not classified

Carcinogenicity

Not classified

Reproductive toxicity

Not classified

Specific target organ toxicity (single exposure)

Not classified

Specific target organ toxicity (repeated exposure)

Not classified

Aspiration hazard

Not classified.

Symptoms/injuries after inhalation

None under normal use.

Symptoms/injuries after skin contact	Causes skin irritation.
Symptoms/injuries after eye contact	Causes serious eye irritation.
Symptoms/injuries after ingestion	Gastrointestinal complaints.

Section 12: Ecological information

Toxicity	No additional information available
Persistence and degradability	No additional information available
Bioaccumulative potential	No additional information available

Section 13: Disposal considerations

Waste disposal

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Section 14: Transport information

Department of Transportation (DOT)	Not regulated for transport
Additional Information	No supplementary information available
ADR	No additional information available
Transport by sea	No additional information available
Air Transport	No additional information available

Section 15: Regulatory information

All components of this product are listed, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.

This product or mixture does not contain a toxic chemical or chemicals in excess of the applicable de minimis concentration as specified in 40 CFR §372.38(a) subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

California Proposition 65 - This product does not contain substances known to the state of California to cause cancer and/or reproductive toxicity.

Section 16: Other information

Training advice	Normal use of this product shall imply use in accordance with the instructions on the packaging.
------------------------	--

Full text of H-phrases:

H302	Harmful if swallowed
H315	Causes skin irritation
H319	Causes serious eye irritation

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings are not required on SDSs under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered mark of the National Paint & Coatings Association (NPCA). HMIS® materials may be purchased exclusively from J.J. Keller (800) 327-6868.

The customer is responsible for determining the PPE code for this material.

National Fire Protection Association:

Health: 1 - Exposure could cause irritation but only minor residual injury even if no treatment is given.

Flammability: 0 - Materials that will not burn.

Physical hazard: 0 - Normally stable, even under fire exposure conditions, and are not reactive with water.

Copyright ©2001, National Fire Protection Association, Quincy, MA 02269. This warning system is intended to be interpreted and applied only by properly trained individuals to identify fire, health and reactivity hazards of chemicals. The user is referred to certain limited number of chemicals with recommended classifications in NFPA 49 and NFPA 325, which would be used as a guideline only. Whether the chemicals are classified by NFPA or not, anyone using the 704 systems to classify chemicals does so at their own risk.

Notice to reader

To the best of our knowledge, the information contained herein is accurate. However, neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein.

Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist
