

Fire Fighting Foam

Product # 697

Aqueous film-forming foam

This non-corrosive synthetic concentrate produces a long-lasting and dense foam designed for fighting Class A and Class B fires. It offers superior water retention, while promoting smothering, cooling and vapor suppression capabilities. Designed for use at 3% dilution, it's compatible to use with surfactants and tank protectors.

Use on Class A and Class B fires:

- Non-polar liquids
- Mineral Spirits
- Gasoline
- Benzene
- Fuel Oil
- Other Hydrocarbons

Features and Benefits

- Excellent smothering and vapor suppressing properties.
- Designed for use on Class A and Class B flammable liquid fires.
- Cools the fuel and adjacent surfaces to below their ignition temperatures.

Properties

Appearance.....	Yellow liquid
Fragrance.....	Detergent
Concentrate.....	Yes
Specific gravity.....	1.03
pH.....	9.5-10.5

Directions *Complete directions on product label*

For Class A and Class B fires, involving, dilute to 3% using a standard eductor or other proportioning system. May also be premixed.

Active Ingredients

Water.....	7732-18-5
Diethylene glycol monobutyl ether.....	112-34-5
Sodium Lauryl Sulfate.....	73296-89-6
Ethylene Glycol.....	107-21-1
Coconut Diethanolamide.....	68603-42-9
